Our STEPS Toward Homeownership program addresses housing affordability from the perspective of financial literacy via virtual meetings. Did you know over half of all renters in California thought you needed at least 20 percent down to purchase a home (C.A.R. 2019 Renter's Survey)? The reality is that there are programs available that enable a purchase with much lower down payments. This program brings relevant information to our members about credit scores, financial planning, leveraging down payment resources, and options for low- to moderate-income earners so that we can educate our buyers.
